

TABLE OF CONTENTS

Foreword	3
Acknowledgements	4
Executive Summary	13
Coal’s decade of stagnation	13
While some demand centres are in decline, others are taking off	13
High prices endure, along with volatility	14
Uncertainty is the main certainty for coal trade	14
Understanding priorities in China	14
Coal still advances in India	15
Better times for US coal?	15
New boost in CCUS is pivotal	16
1. Recent trends in demand and supply	17
Highlights	17
Demand	18
OECD demand trends	19
OECD non-member demand trends	24
Supply	29
OECD supply trends	30
OECD non-member supply trends	32
References	36
2. Recent trends in international coal trading	37
Highlights	37
The international coal market	37
International thermal coal trade	38
International met coal trade	40
Regional analysis	40
Exporters	40
Importers	46
Prices	50
Seaborne thermal coal prices and regional arbitrage	52
Seaborne met coal prices	55
Coal forward prices	55

Coal derivatives	56
Coal supply costs	57
Development of input factor prices	57
Currency exchange rates	59
Dry bulk shipping market	61
Development of coal supply costs.....	63
References.....	65
3. Medium-term forecast of demand and supply.....	67
Highlights.....	67
Methodology.....	68
Assumptions.....	68
Global coal demand forecast	70
OECD coal demand forecast, 2017-22.....	71
OECD non-member coal demand forecast, 2017-22	80
Global coal supply forecast	90
References.....	97
4. Medium-term forecast of seaborne coal trade.....	99
Highlights.....	99
Methodology and assumptions.....	100
Seaborne coal trade forecast	100
Seaborne thermal coal trade forecast, 2017-22	101
Seaborne met coal trade forecast, 2017-22.....	113
References.....	117
5. Capacity investment outlook	119
Highlights.....	119
Are coal prices high enough to trigger investment?	119
Investment in export mining capacity.....	122
Regional analysis	123
Australia.....	123
Colombia.....	124
South Africa	125
Mozambique.....	126
Russia.....	126
Indonesia	127

Canada.....	128
United States	128
Mongolia.....	129
References.....	130
Annex 1	131
Annex 2	135
Glossary	140

LIST OF FIGURES

Figure 1.1	Replacement of coal-fired generation in the United Kingdom, 2012-16.....	21
Figure 1.2	Coal-based electricity generation in selected OECD countries: Absolute changes, 2015-16	22
Figure 1.3	Monthly year-on-year differences in crude steel production in OECD member countries, 2014-17	23
Figure 1.4	Coal-based electricity generation in selected OECD non-member economies	26
Figure 1.5	Capability of current flue gas treatment systems.....	27
Figure 1.6	Monthly year-on-year differences in crude steel production in OECD non-member economies, 2014-17	28
Figure 1.7	CCP production and consumption in the United States, 1972-15.....	32
Figure 1.8	Monthly year-on-year differences in coal mining in Inner Mongolia, Shanxi and Shaanxi, 2016 compared with 2015.....	33
Figure 1.9	Calorific value of Indonesian coal exports in 2016	34
Figure 2.1	Market development of seaborne thermal (left) and met coal (right), 2011-16.....	38
Figure 2.2	Australian exports of thermal coal (left) and met coal (right), 2002-16.....	41
Figure 2.3	Monthly y-o-y differences in Indonesian exports to China (2016 in comparison with 2015)	42
Figure 2.4	Indonesian export destinations, 2002-16	42
Figure 2.5	Colombian export destinations, 2002-16.....	43
Figure 2.6	South African export destinations, 2002-16	44
Figure 2.7	US exports of thermal coal (left) and met coal (right), 2002-16.....	45
Figure 2.8	Chinese coal imports, 2003-16.....	46
Figure 2.9	Monthly year-on-year differences in Chinese imports, 2015-17	47
Figure 2.10	Indian coal imports by country, 2002-16	48
Figure 2.11	Marker prices for different types of coal, 2015-17	50
Figure 2.12	Weekly Qinhuangdao price evolution, 2015-17	51
Figure 2.13	Thermal coal price markers in Europe, China and Colombia, 2016-17.....	52
Figure 2.14	Colombian exports to Asia	53

Figure 2.15	Price markers for different thermal coal qualities in South Africa and Australia, standardised to an energy content of 6 000 kcal/kg, 2015-17	53
Figure 2.16	Hard coking coal prices and developments affecting supply	54
Figure 2.17	Coking coal price and monthly year-on-year BFI production growth, 2014-17	55
Figure 2.18	Forward curves of API 2 (left) and API 4 (right), 2016-17	56
Figure 2.19	Trade volumes for coal derivatives, 2000-16	56
Figure 2.20	Indexed nominal prices of selected commodities used in coal mining	57
Figure 2.21	Average coal-mining fuel costs (left axis) and their share in total mining costs (right axis), 2014-16	58
Figure 2.22	Average coal-mining labour costs (left axis) and their share in total mining costs (right axis), 2014-16	59
Figure 2.23	Mining cash-cost components, averages and value ranges, 2016	59
Figure 2.24	Indexed development of the USD against selected currencies	60
Figure 2.25	FOB steam coal prices in USD and local currency, 2014-17	61
Figure 2.26	Bulk carrier fleet, 2010-17	62
Figure 2.27	Selected freight rates, 2006-17	62
Figure 2.28	Indicative steam coal supply costs to north-western Europe, 2014-16	63
Figure 2.29	Indonesian steam coal supply cost curves, 2014-16	63
Figure 2.30	Indicative coking coal FOB cost curves and FOB prices, 2014-16	64
Figure 3.1	Implied marginal costs of coal- and gas-fired electricity generation, 2016-22	69
Figure 3.2	Projected thermal coal and lignite demand for OECD member countries	72
Figure 3.3	Indicative merit order for the German electricity market	74
Figure 3.4	Coal-to-gas competition in the German electricity market, historically (left) and in the future (right)	75
Figure 3.5	Thermal coal and lignite demand shares, Poland and Germany	76
Figure 3.6	Share of coal in EU countries power generation (2016), capacity and BREF votes	78
Figure 3.7	Projected met coal demand for OECD member countries	79
Figure 3.8	Projected thermal coal and lignite demand for OECD non-member economies	79
Figure 3.9	Per capita electricity consumption of selected countries, 2016	85
Figure 3.10	Projected met coal demand for OECD non-member economies	87
Figure 3.11	Projected thermal coal and lignite supply	91
Figure 3.12	Projected met coal supply	95
Figure 4.1	Projected total export volumes in international steam (left) and met coal (right)	101
Figure 4.2	Projected seaborne thermal coal imports	101
Figure 4.3	Southern Chinese seaborne domestic and import supply cost curve (FOB) in 2016 (left) and 2022 (right)	103
Figure 4.4	Korean coal import tax scheme	107
Figure 4.5	Korea's coal and gas generation capacity and load factor, 2011-15	109
Figure 4.6	Variable costs by case	110
Figure 4.7	Thermal efficiency of coal-fired power plants and gas-fired CCGTs	110

Figure 4.8	Projected seaborne thermal coal exports.....	111
Figure 4.9	Projected seaborne met coal imports.....	113
Figure 4.10	Projected seaborne met coal exports	115

LIST OF MAPS

Map 2.1	Main trade flows in the seaborne thermal coal market, 2016 (Mt)	39
Map 2.2	Main trade flows in the seaborne met coal market, 2016 (Mt).....	40
Map 3.1	Incremental global coal demand 2016-22 (Mtce).....	70
Map 3.2	Coal-to-gas switch in industrial boilers in China (Mt of coal avoided).....	82
Map 3.3	Coal power plants in Pakistan	88
Map 4.1	Main Indian plants based on imported coal and ports, 2016	105
Map 5.1	Cumulative capacity of hard coal export mining projects, 2018-22	122

LIST OF TABLES

Table 1.1	Coal demand overview.....	18
Table 1.2	Hard coal and lignite consumption in selected OECD member countries (Mt)	20
Table 1.3	Korean coal-fired power plants commissioned in 2016.....	22
Table 1.4	Hard coal and lignite consumption in selected OECD non-member economies (Mt) ...	24
Table 1.5	Coal supply overview	29
Table 1.6	Hard coal and lignite production in selected OECD member countries (Mt)	30
Table 1.7	Hard coal and lignite production in selected OECD non-member economies (Mt)	35
Table 2.1	Thermal coal exports in 2016 (Mt) and net changes from 2015 (colour-coded).....	39
Table 3.1	Remaining nuclear power plants in Germany and latest decommissioning dates.....	73
Table 3.2	Japanese coal-fired power plants under construction.....	76
Table 3.3	Korean coal-fired power plants older than 30 years.....	77
Table 3.4	Korean coal-fired power plants under construction.....	77
Table 3.5	Selected large Indonesian coal-fired power plants under construction	86
Table 4.1	UHV lines commissioned in 2017	102
Table 4.2	Coal and gas tax scheme	109
Table A.1	Coal demand, 2015-22, forecast (million tonnes of coal equivalent [Mtce])	131
Table A.2	Thermal coal and lignite demand, 2015-22, forecast (Mtce).....	131
Table A.3	Metallurgical (met) coal demand, 2015-22, forecast (Mtce).....	132
Table A.4	Coal production, 2015-22, forecast (Mtce).....	132
Table A.5	Thermal coal and lignite production, 2015-22, forecast (Mtce)	133
Table A.6	Met coal production, 2015-22, forecast (Mtce).....	133
Table A.7	Seaborne steam coal imports, 2015-22, forecast (Mtce)	134
Table A.8	Seaborne steam coal exports, 2015-22, forecast (Mtce).....	134

Table A.9	Seaborne met coal imports, 2015-22, forecast (Mtce)	134
Table A.10	Seaborne met coal exports, 2015-22, forecast (Mtce).....	134
Table A.11	Current coal mining projects	135

LIST OF BOXES

Box 1.1	Emissions, concentrations and air quality	26
Box 1.2	Coal ash, turning a burden into value.....	31
Box 2.1	Déjà vu in Queensland	54
Box 3.1	Fuel switch in Germany: What prices are necessary?	74
Box 3.2	European Union on its way out of coal.....	78
Box 3.3	Pakistan switching on	88
Box 3.4	Supply-side reforms in China's coal industry.....	94
Box 4.1	Reducing coal imports through UHV line construction	102
Box 4.2	Interpreting Indian acronyms	106
Box 4.3	Korea's changing energy policy approach	109
Box 5.1	Success and setbacks for CCS coal-fired power in 2017	120
