

TABLE OF CONTENTS

Executive Summary	11
1. Demand	15
Highlights.....	15
Global overview.....	16
Macroeconomic environment and prices	18
Continuous demand growth for petrochemicals.....	19
IMO will temporarily boost fuel oil in the power sector.....	21
Strong Asian demand for jet fuel makes it a key contributor to growth	24
OECD demand	28
OECD Americas	29
OECD Europe	30
OECD Asia Oceania.....	32
Non-OECD demand	33
Africa	34
China	35
China’s natural gas and electric vehicles.....	36
Other Asia.....	38
Non-OECD Europe.....	41
Former Soviet Union	41
Latin America.....	43
Middle East.....	44
2. Supply	47
Highlights.....	47
Global overview.....	48
Upstream investment	49
Non-OPEC oil supply	51
United States sets new records, but needs higher price to maintain pace	51
Brazil rebound around the corner	57
Tight oil developments boost Argentina.....	58
Mexico shifts focus back to onshore and shallow water	59
Guyana gears up for first oil	61
Canada outlook deteriorates.....	61
Norwegian giant fuels North Sea recovery	62
Russia demonstrates its capability with record output	63
Caspian production holds steady.....	64
Asian output slumps further.....	65
New producers gear up in non-OPEC Africa.....	65
Qatar lifts Middle East.....	66
OPEC crude oil capacity	67
Iraq fuels OPEC growth	68
US sanctions stymie Iran	70

Political crisis clouds Venezuelan outlook.....	72
Civil unrest threatens African growth.....	73
Natural gas liquids	76
Biofuel supply.....	80
3. Refining and Trade	85
Highlights.....	85
Global overview.....	85
Refining outlook	89
Atlantic Basin	90
East of Suez.....	93
Crude and product quality developments	100
Crude and products trade.....	107
Crude trade developments.....	109
Product trade developments.....	113
4. Special feature: IMO 2020, calm after the storm	117
Highlights.....	117
Global overview.....	117
Bunker demand growth to slow	119
Our 2020 fuel switching scenario	119
VLSFO gathers pace during 2021-24.....	121
Inland diesel demand growth slows	122
Refining sector targets gasoil	123
Refinery investments to increase	123
Scrubbers boost fuel oil demand.....	124
Scrubber installations peak in 2019-20, fall afterwards	125
Compliance issues unlikely to last	126
LNG makes small but growing contribution.....	127
5. Tables.....	129
6. Appendix	143

LIST OF FIGURES

Figure 1.1	Global oil demand, year-on-year change.....	15
Figure 1.2	Global oil demand by product and fuel oil breakdown, y-o-y change	18
Figure 1.3	Maximum additional capacity feedstock requirement (kb/d)	20
Figure 1.4	Incremental inland fuel oil demand vs. 2019.....	23
Figure 1.5	Jet fuel demand growth.....	24
Figure 1.6	Top 5: Jet fuel demand growth (2018-24)	24
Figure 1.7	Air passengers	25
Figure 1.8	Passengers vs GDP/capita.....	25

Figure 1.9	Jet fuel demand OECD Europe	26
Figure 1.10	Air passengers	26
